

HT-Q100

Stylish Home Theater System

The HT-Q100 Home Theater System is designed to complement the sophisticated style and brilliant performance of Samsung's "51" Series of LCD TVs. The 2.1-channel technology puts you in the center of the action, thanks to Dolby Virtual Surround® transforming 300 watts of audio power into breathtaking sound. Improved USB Host Play lets you plug and play your portable digital devices, all enhanced by progressive scan technology. HDMI output provides video up-scaling to 1080i. With two sleek half-tower speakers, and a readout that glows subtly through the surface of the unit, the HT-Q100 enhances the audio and visual ambiance of any room.

- 2.1 channel home theater system - no rear speakers ensures easy set-up
- 300W total output power
- Improved USB host play now with MPEG video playback, MP3, WMA and JPEG support
- Dolby® Virtual Surround
- Progressive scan with component video outputs
- Multimedia disc playback
- HDMI output with video up-scaling (up to 1080i)
- 2 half tall speakers
